Promotional Poster – Design Sprint 2026

Promotional Poster – Design Sprint 2026

Concept & Purpose:

The purpose of this poster is to promote an event called Design Sprint 2026.

It is designed to attract students interested in creative and technical skills.

The poster communicates key information in a visually appealing and clear way.

1. Layout Planning

The poster follows a vertical (portrait) layout.

Information is arranged using visual hierarchy:

Top → Heading

Middle → Main content

Bottom → Details

2. Typography

The main heading “Design Sprint 2026” is placed at the top center in a bold font.

Subheading “Organized by Creative Tech Society” is placed below it.

The main content is written in the center in readable font.

Font sizes are adjusted to create hierarchy and emphasis.

3. Color Scheme

A blue and purple gradient is used to represent creativity and technology.

White/light colors are used for text to maintain contrast and readability.

4. Use of Icons

Icons are used to visually represent the content:

 Paintbrush icon → Poster Design

 Laptop icon → Logo Design

 Sparkle/Bulb icon → Branding Skills

Icons are placed on the left side of each text line for clarity.

5. Content Placement

Center:

“Learn Poster Design, Logo Design & Branding Skills”

Bottom:

Date (left side): April 2026

Venue (right side): Dept. of Software Engineering

6. Design Principles Applied

Balance: Equal spacing between elements

Contrast: Light text on dark background

Alignment: Center alignment for main content

Hierarchy: Important text is larger and more visible

Conclusion

The poster is clean, balanced, and easy to understand.

It effectively communicates the event details using visuals and text.

QNo:02

Logo Design - Creative Tech Society

CREATIVE

— TECH SOCIETY —

MEANING BEHIND OUR LOGO

Bulb = Ideas & Creativity

Circuit = Technology & Innovation

Circle & People = Teamwork & Unity

CREATE • COLLABORATE • INNOVATE

Logo Design – Creative Tech Society

Concept & Purpose

The logo represents the identity of Creative Tech Society.

It combines creativity and technology in a simple visual form.

Design Process (Step-by-Step)

1. Idea Development

The concept is based on:

Creativity (ideas, innovation)

Technology (digital tools, systems)

2. Shape Selection

A simple and clean shape (circle or abstract form) is used.

The shape keeps the logo modern and professional.

3. Elements Used

💡 Light bulb → Represents ideas and creativity

🔌 Circuit lines → Represents technology

These elements are combined into a single symbol.

4. Typography

The name “Creative Tech Society” is added below or beside the logo.

A clean and modern font is used.

5. Color Selection

Blue → Technology

Yellow → Creativity

Colors are kept minimal for simplicity.

6. Design Principles Applied

Simplicity: Easy to recognize

Scalability: Can be used in small or large sizes

Relevance: Matches the theme of tech and creativity

Conclusion:

The logo is simple, meaningful, and professional.

It clearly represents the organization’s purpose.

Qno:03

Campaign Poster – Save Energy

Campaign Poster – Save Energy

Concept & Purpose

The purpose of this poster is to spread awareness about energy conservation.

It encourages people to adopt eco-friendly habits.

Design Process (Step-by-Step)

1. Message Planning

Main message:

“Save Energy, Save Future”

Supporting lines:

“Switch off lights when not in use”

“Use renewable energy”

2. Visual Elements

A light bulb with Earth inside is used as the main visual.

Leaves and eco elements represent nature and sustainability.

3. Color Scheme

Green → Environment

Blue → Earth and sustainability

Soft colors are used for a calm and positive effect.

4. Layout Structure

Top:

Title (bold and clear)

Middle:

Main image (bulb + earth)

Bottom:

Awareness message

5. Design Principles Applied

Clarity: Message is short and easy to understand

Visual Communication: Image explains the idea

Balance: Proper spacing between elements

Contrast: Text is readable on background

Conclusion

The poster effectively delivers an environmental message.

It uses simple visuals and colors to create awareness.
